

GENERAL CONTRACTORS
CONSTRUCTION MANAGERS

November 7, 2008

Mr. Sean Foley
Atlantic Doors and Hardware, Inc.
4610 10th Avenue North
Lake Worth, FL 33463

RE: *Ocean Ridge Town Hall*

Dear Sean,

This letter is written to express my thanks to you and ADH for another job well done!

As you will recall, not long after we started construction at Ocean Ridge Town Hall, we were tasked with the goal of value-engineering several components of the building, including the finish hardware. The value-engineering of the hardware component was particularly challenging for two reasons. First, as an institutional building, it is subject to heavy use. Second, the building houses the police station and secure jail facilities as well, and simply downgrading the hardware was not an option. Despite these limitations, you were able to reduce the owner's budget significantly because you spent a considerable amount of time focusing on the intensity of use and the specific hardware function actually necessary for each and every opening in the building.

When we began the finishing stages of construction, ADH was there when we needed you. Doors, frames, and hardware were delivered on schedule. You effectively coordinated your work with the access control vendor and assured a trouble-free installation.

Sean, your efforts are very much appreciated. ADH brought value to the BSA Corporation team, enabling us to take care of our customer in a professional manner and get the job done quickly and efficiently. As a General Contractor, I could not ask more of any vendor.

Thank you again for making us all look good! I look forward to working with you and ADH on the next project.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Bill Branning", with a stylized flourish at the end.

Bill Branning
